Guest Speaker: Dr Claire McKinney, William & Mary associate professor of government
Topic: The Assault on Equity

Project 2025 was developed by the Heritage Foundation and adopted by the Trump Administration. Historically Republicans would use some of the ideas of various think tanks. What is new is with this administration is that they are accepting everything in Project 2025 as their playbook. The administration is testing out these policies to see how far they can go. There is a website to track what has been implemented. Out of 300 policy proposals in Project 2025, 135 have been implemented. Their goal is to dismantle the government as we know it today.
